Signed Orrefors Sweden PU 3364 Sven Palmqvist -  
H: 26,5 cm W: 11,5 cm D: 9,0 cm

Ref. 10439

The Kraka technique was developed by Sven Palmqvist in 1944. The pattern is created with the use of a wire mesh that is placed over a blank that is then etched. This creates a net-like pattern that traps air bubbles when the outer encasing of glass is applied.

Produced by Orrefors
