

Triplex Lamp  
Johan Petter Johansson  
1940

Nickel plated and painted metal. Used as floor-, ceiling- or wall lighting. Adjustable length: 140-300cm.

Ref. 4728

As a Swedish inventor and industrialist, Johansson invented the modern adjustable spanner and plumber wrench. He obtained over 100 patents in total and founded the Triplex Factory in 1919.
